### About me

Hello! My name is Chris Nutbeen, I'm a Creator, UI Designer & Full-stack Developer, turned Entrepreneur.

My background is Graphic Design & I love tech, so I combined these skills to launch a collection of businesses.

I focus on modern front-ends like React & GatsbyJS with clean UI design & Shopify for eCommerce.

### What next?

My businesses listed above are only my successful ones and some of those are still early days. Make no mistake, before these there were many not so successful ones, which are important for 2 reasons. 1, it taught me the lessons I use today to scale online businesses. 2, its given me broad experiences which I now use to help scale my clients businesses.

## Skills.

### Advanced

#### Design

- Adobe XD / Figma
- Procreate ( iPad )
